### [Basic Browser Information and Setup](#)

- for use with IE 4 and above or Netscape 4.7 and above
- complies with Office of Information and Communications Technology guidelines for usability and accessibility
- screen resolution - 1024x768 or greater
- font settings - for optimum viewing, your text size should be set to Smaller or Medium. In Internet Explorer, you can do this by accessing the *View* menu item on your browser, then select *Text Size*, and *Smaller* or *Medium*. In Netscape Navigator or Communicator, you can adjust the font size by selecting the *View* menu on your browser, and *Increase Font* or *Decrease Font*.

### [Navigation](#)

Our web pages have a global navigation system across the top and below the header above.

The buttons on the grey bar above represent the main areas of the Department of State and Regional Development (DSRD) main website (including [Help for Business](#), [Investment Opportunities](#), [Industry Profiles](#), etc.). The buttons act as a direct link to the front page of that area.

The left hand navigation bar is used for navigation once you have entered any of the main areas.

The right hand navigation includes the site search function and links to related sites and other information when included.

For easy access a minor link navigation bar for common pages appears at the bottom of each page.

### [Search Facility](#)

The DSRD provides a wide range of services to business and communities in NSW. The search facility will return results residing on this main DSRD website only. [Other DSRD websites](#) contain their own search facility.

### [Site Map](#)

You can access the DSRD site map by clicking on the link in the bottom navigation bar.

### [Feedback](#)

To assist us in improving our website, we encourage site feedback or any queries you may have on our range of products and services. Please complete the form on our [Contact Us page](#).
